## Walk Worthy: Week 1

Daniel 6

---

- Do you agree that we are living in a secular culture? What makes you say that we are or are not?
- What approaches do we typically take when confronting a secular culture? What seems to be effective and what seems to be ineffective?
- What identities do we typically elevate in our life? What are the dangers/implications associated with rooting our identity in anything other than Jesus?
- What sticks out to you from Daniel's approach to living in a secular culture? Do you think it is sustainable? Effective? How can you embrace this "strategy" in your own life?
- What difference do you think it would make in your community if you lived like Daniel?
